Comments on 101 Rejection

Claim 10 recites,

"In a computer readable **recording** medium for realizing a program including instructions executable by a computer for performing a method for searching a wireless LAN AP (access point) by a terminal having a wireless LAN module, a mobile communication module, and a GPS receiving module installed therein, the method comprising:"

The claim recites "**recording** medium". Since the medium in the claim is used specifically to record the instructions, it means the instructions are not short-lived or not transitory on the medium. Thus the examiner interprets the recording medium as a non-transitory medium and did not reject this claim under 101.

Allowable Subject Matter

Claims 1-4 and 6-10 allowed as previously stated in the Advisory Action mailed on 3/24/10.

The following is an examiner's statement of reasons for allowance is based on the Remarks and the submission of the approved Terminal Disclaimer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
